PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size*, heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes*, or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume I will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, OCT. 31, 1833.

THE WARREN CONVENTION.—Our readers will perceive that a movement has been made, in relation to this meeting, in Philadelphia. We think there is no doubt that delegates will be appointed. Should not the citizens of Allegheny county be in motion, it is now less than two weeks to the assembling of the Convention.

STEAM ENGINES IN ALLEGHENY COUNTY.—There is some curiosity to know the number of steam engines in operation in the city of Pittsburgh and county of Allegheny. To ascertain the number, and to obtain full information in relation to them, we invite the owners and manufacturers of such engines to forward to the office of the Pittsburgh Gazette, free of postage, lists of the engines, names of their owners, power of the engine, use to which it is applied, consumption of fuel, where located, and other matters which may be useful or interesting.

In relation to the older engines, it would be well to mention also the length of time during which they have been in operation, and cases in which *steam* power has been added to, or substituted for, *water* power should also be mentioned.

Perhaps the manufacturers of steam engines could of themselves furnish all the information required, and do it more speedily than the owners, scattered as they are through the county.—If this request should be complied with, we will digest all the information collected, and publish it.

BRADDOCK'S FIELD.—We have, for some time, noticed an article, descriptive of this place, and of the defeat which occurred there, in 1775, going the rounds of the papers, and credited to a writer in the Pittsburgh Mercury, under the signature of "Ohio."—If any of our readers should be desirous to see it, they will find it in Gordon's Gazetteer of Pennsylvania, page 58.

DISTRESSING ACCIDENT.—On Monday evening last, an interesting daughter of Dr. Hughey, of this city, about six years of age, was severely burnt, in consequence of her clothes taking fire—her life is now despaired of.—*Advocate.*

LEGISLATIVE PROCEEDINGS.

PENNSYLVANIA TELEGRAPH.

The Editor of this paper intends publishing it twice a week, during the session of the Legislature. It will contain full and accurate reports of the proceedings of that body, together with a summary of the debates on all important questions, taken by competent and faithful Reporters. The ensuing session, it is believed, will be one of more than ordinary interest. The questions of internal improvement, loans, taxation, new banks, and corporations, are expected to elicit much discussion, and engross a large portion of the time of the legislature. The editor's own course will be, as heretofore, independent; uninfluenced by the approbation or disapprobation of the majority, or the expectation of legislative patronage. In that respect, he will exercise a privilege unenjoyed by those who labor as public stipendaries, and bow to the commands of their masters. The conduct of public men, their measures, and principles, shall be treated with justice, impartiality, and independence. An abstract of the most important Congressional Proceedings, will also be given; and a portion of the Telegraph will be devoted to Literary and general news.

Those wishing to subscribe, are requested to send in their names by the first day of the Session.

TERMS—The Telegraph will be published on an Imperial sheet, with good type, at $2 00 for the session, in advance.

The Patrons of the Telegraph, in arrears, many of whom are indebted for more than two years' subscription, are requested to make payment.—Those having no other opportunity, are desired to send the amount of their bills by the Members of the Legislature.

THEO. FENN.

October 31, 1833.

From Port au Prince.—Letters of the 9th inst., received per the brig Daniel H. Miller, at New York, state that a French frigate had just arrived from Martinique, with despatches from the French, for the Haytien Government, and had sailed again for St. Jago de Cuba, to return in a few days. It was supposed, from the friendly nature of the despatches, that all differences between the two Governments would be amicably and immediately settled. It will be recollected that these differences relate to the recognition of the independence of the Island. The markets were glutted with all kinds of American produce.—*Poulson.*

Prognostics of early Winter.—The greater part of the birds of passage which emigrated towards the North in summer, have already been observed to return Southwardly, as the blue bird, buzzards, and some other species As their instinct is unerring, this sign of early frost may be deemed unequivocal.

"For reason raise o'er *instinct* as we can,
In this 'tis *God directs*, in that 'tis man."—POPE.

One would suppose that there could be no danger in absentees returning to the city—after the late cold nights and weather, but we presume not to counsel any one.

Business has partaken of the change. Our cotton presses have been in full operation for several days, and a great deal of produce has arrived notwithstanding the lowness of the river. Purchasing and freighting go on swimmingly.—*N. Orleans paper, Oct. 9.*

TOWN MEETING.

At a very numerous and highly respectable meeting of citizens, held in the District Court Room, on Saturday evening, October 26, 1833, Henry Troth, Esq., was called to the chair, and Robert Bethel appointed secretary. General R. Patterson stated the object of the meeting to be to devise measures for participating in the convention to be held in the western part of the state, on the 13th proximo. General P. was followed by Colonel Chew, who remarked upon the advantages which must result to the state from a direct intercourse with the improvements of Ohio. The following resolution was offered by General Patterson, and unanimously adopted:

On motion, resolved, that a committee of seven persons be appointed to confer with the board of trade in relation to the canal convention, to be held at Warren, in the State of Ohio, on the 2d Wednesday of November next, and to adopt such measures as may be proper to carry into effect the objects of the proposed convention.

The following gentlemen were appointed the committee:

J. Randall,	Corn. S. Smith,
Alexander McClurg,	J. R. Burden,
J. M. Attwood,	Jacob Frick.
John B. Brown,	

Resolved that the proceedings be published.

HENRY TROTH, Chairman.

ROBERT BETHEL, Secretary.—*U. S. Gaz.*

By the brig Bogota, Captain Taylor, we have received Canton papers to May 21st, and a letter of the 25th.

Among the papers are the two first numbers of "The Evangelist and Miscellanea Sinica,"—a religious paper, published partly in English, and partly in Chinese. It seems designed for circulation among the natives, as well as English and Americans. The name of the Editor is not announced. We should think it might do much good.

The Canton Register thus alludes to it.

The first No. of a very neatly printed paper, named the "*Evangelist*," has made its appearance in Canton. It is, as the name would import, devoted to intelligence of a decidedly religious character. From part of the contents being printed in Chinese (the execution of which is, by the way, the most elegant which we have yet seen) it is, we suppose, intended for circulation among the natives. As tending to their enlightenment, it is entitled to our best wishes; the more so as we fear that, from the deeply rooted prejudices of the Chinese, and the general apathy to religion, the attempt to convert them to Christianity must be an irksome and ungreatful task; if fortunately even not an unsuccessful one.

There is nothing important respecting the Formosa rebellion. The Canton Register of the 18th May says, "We have never been able to ascertain fully to what extent the rebels have carried their operations, or whether, in the Northern parts of the Island, they have been up to the present moment subdued."

The Sylph, a vessel which sailed from Canton early in the fall of 1832, up the Eastern coast of China, and which had long since been given up for lost, returned in safety about the 1st of May, after experiencing a variety of misfortunes which we have not now time to detail.

Correspondence of the Journal of Commerce.

CANTON, May 25th, 1833.

My Dear Sir,—Dr. Morrison's son, Mr. J. R. Morrison, embarked in the U. S. ship Peacock, for Cochin China and Siam. We have no report from her yet.

Gutzlaff is here. You will find reports of him and by him in the Register, and also in the forthcoming number of the Repository.

CANTON, May 21.—Le the Shwuy-sze-Te-tuh, or Canton Admiral, who some months ago went down to Hainan, in quest of pirates, found a Budh Temple on the Coast, in which the names of some of the head pirates were exhibited, as giving thanks to the gods for divine help. The Admiral was so enraged, he ordered the Temple to be razed to the ground. After this, the fleet met with a gale of wind, and some of his Captains reminded him of his impiety, in pulling down the temple. They also suggested that some sacrifice should be offered, to atone. He only laughed at them; but still permitted them to have their own way, and went into another war junk. The gale increased; one junk was driven away from the rest and has not been since heard of; and the junk which the Admiral had left, together with another, went to pieces by which upwards of a hundred men were drowned. After the gale was over, the survivors recovered parts of the wrecked vessels, and found in the hull, where three nails or bolts ought to have been, there was only one; and where the other two nails should have been, there were only empty holes, stopped outside with chunam.—They have brought back the proofs of this wicked fraud, and the government carpenters are now being prosecuted for their crime.

We hear from another source, on the same subject, that a hundred thousand taels were being spent on new war junks, under the direction of the Kwangehowfoo, when secret information was given to the Admiral and Governor, that the ten new junks were all put together with bamboo or wooden pins, in five or six cases out of ten, where iron nails or bolts should be used. The fact was denied; but examination proved it true. The Admiral and Governor were enraged, and proposed the degradation of the Kwangehowfoo by reporting him to the Emperor. The persuasion of a friend appeased the storm for a while, but the Governor declares that nothing will satisfy him but ten other and better built junks.

CANTON, May 1.—We have heard a rumor of insurrectionary movements in Corea; but that nation is shut against European intercourse, still more than China and Japan; and information of particulars is not to be had.

Formosa is still in a disturbed state. Long despatches, announcing victories, have for months past been sent to the Emperor, copies of which we have seen; but there is every reason to suppose them fallacious.

Some unfortunate persons, designated Leaders, have been cut to pieces, and some decapitated, on being caught by the Imperialists. Among the Insurgents, a Budh priest is named as being contriver of their military movements.

MANILLA.—We hear that early in last month, the inhabitants of Manilla were much alarmed by the sudden decrease of water in the river, which was attributed to some volcanic action in the interior. The water had changed to a greenish color; and with so unpleasant an odor as to render it useless for all purposes of economy. It was feared that, in case of the evil not soon abating, a pestilence might ensue.

BRITISH TRADE WITH CHINA.—From a list published in our Price Current, it will be seen that the number of vessels under the British flag which arrived in China, during the last year, amounted to eighty seven. Of these, nine (H. C. Ships) were from London direct; twenty four from Calcutta; thirty one from Bombay; two from Madras; one from New South Wales; four from Java; six from Singapore; eight from Manilla; and two from cruises on the coast.

STRAYS.

Subscribers would do well to preserve this paper.

As many of our readers may not have had an opportunity of examining the acts of Assembly, which direct the course of proceeding relative to Strays, we have thought the following abstract might be of service. It is carefully extracted from the several acts on that subject, and may be relied upon as the substance of the existing law, with respect to taking up and disposing of strays.

"At the time and place of electing supervisors, the qualified electors of each township are to elect, in the same manner, "*some fit person for a Town Clerk*," the judges of which election are to certify it to the Clerk of the Court of Quarter Sessions, who is to make record of it in the same manner as the election of the constables. If the inhabitants of the township omit thus to elect a town clerk, or if the person elected should refuse to serve, the Court are authorized to appoint some fit person for the office. The duty of the town clerk is to provide, at the expense of the township, to be paid out of the road tax, a book, in which he is to enter the description of all things furnished to him by the persons taking them up; to be paid a fee of fifty cents for each horse, twenty five cents for each head of cattle, and six cents for each sheep—these fees to be paid, in the first place, by the persons taking up the strays, and become a part of the charges which must be paid by the owner, before he is entitled to receive his property.

Any person discovering, upon his improved and inclosed land, any stray cattle, horse, or sheep, may take them up, and having done so, it is his duty to give notice to the owner, if he can be readily found; and if not, he must, within four days, deliver to the town clerk of the proper township, a particular description of the color and marks, natural and artificial, under the penalty of five dollars; the town clerk, under the same penalty, must enter the description in the town book, for the examination of any person who may have occasion to search for any such stray.

If the owner shall appear, and neglect or refuse to tender reasonable satisfaction for the trespass, and costs of keeping the stray, or if the amount tendered be not accepted, either party may apply to a justice of the peace, who is to issue his warrant to three disinterested and honest freeholders of the neighborhood, commanding them forthwith to view and value the trespass, and make report to the justice, and if not more than the owner was willing to give, and had tendered before complaint was made to the justice, the justice to render judgment with reasonable costs: if for more than was tendered, or if no tender was made by the owner, then the justice to render judgment for full costs, together with reasonable costs for keeping, and grant execution accordingly. *Provided*, That if no owner shall have appeared within thirty days, the person taking up the stray forfeits any right to recover any damage, unless within six days he shall have an appraisement made by three freeholders of the neighborhood.

If no owner shall have appeared within ten days after the stray shall have been taken up, it is made the duty of the person taking up the stray to cause an advertisement particularly describing it to be published at least in one newspaper published in the county, if there be one, and if no owner shall appear within sixty pays after such publication, the person taking it up, may apply to any justice of the peace in the township, who shall issue his warrant to a constable, directing him to expose said stray to sale, first giving at least ten days' notice, by written or printed advertisements set up in three of the most public places in the township: and after sale, he is to make a return to the justice, who is to deduct the costs of keeping, damages, and other costs, and pay the surplus into the county treasury.

If the owner appears within a year, and makes proof of his property, and the said justice or any other shall certify the same to the county treasurer, he is entitled to the surplus—but if he do not appear within a year, the surplus shall be applied to county purposes, as the money in the treasury. Any person taking up such stray, and neglecting to give the notice directed in the act, forfeits all right and title to recover any sum of money for trespass, keeping, &c., and is bound to deliver up the stray to the owner without any recompense, fee, or reward, whatsoever.

The town books to be kept open at all times, and free to those who may have occasion to search therein; and no town clerk shall ask or receive any fee or reward for such search under the penaly of three dollars.

The New York Journal of Commerce contains a correspondence from England on the rights of reporters and the press—occasioned by some observations previously given in that journal, and generously acknowledged to have been extracted from our paper. But had the Journal then extracted our report of the address of Mr. Purdon, during the discussion here before the Mayor, there would have been no necessity for its present correspondent obtruding the same opinions enforced by the same precedents or examples. Yet is there one fact communicated, which we gladly subjoin; and recommend to the scrupulous attention of all our presiding judges.—*Phila. Sentinel.*

"About two sessions ago, the Chief Justice of the Common Pleas and Mr. Justice Taunton presided at the Old Bailey during a trial for murder, which lasted a day and a half. The proceedings of the first day filled the subsequent morning papers, and finally led to a most decisive and important opinion. The prosecution was entirely dependant upon circumstantial evidence; and about the middle of the second day, a witness was brought forward whose testimony was such, that the Court immediately ordered an acquittal. This person had read the account of what had transpired on the first day, and was enabled to show that a witness had perjured himself. In ordering the discharge of the prisoner, the Chief Justice observed:—"You are indebted for your life to the great industry and astonishing fidelity of the press. I am now, more than ever, convinced of the necessity of such rapid publications; for, had the printing of the evidence been delayed for four and twenty hours, you must have suffered an ignominious death." After this illustration, it would be an idle display to commence an argument."

The Plea of Insanity is now generally used in exculpation of murder, or by his counsel in defence of a murderer. Thus, in the case of Clough, it was insanity from disappointed love, and in the case of Getter, insanity from compelled marriage. —But of all the offensive pleas of insanity, was that lately set up for Daniel Shearman, (accused of having murdered his wife and children)—insanity from the excessive use of ardent spirits. Now in the eye of any but *ingenious lawyers* and effrontive villains, such a plea ought to be considered an added enormity to guilt—intemperance being in itself a decisive crime, and therefore not capable of extenuating any other crime. A criminal should, if possible, be doubly punished in every such instance of guilt; for if the motive consecrates or desecrates an act, recklessness of conduct by previous debauchery is decidedly the cause or source of criminality in motives and means; and if it is not directly malice prepense, it is premeditated villainy.

Shearman was convicted and sentenced to be hung on the second Friday of June next; and we feel ourselves induced to extract the following from the charge of the presiding judge, Chief Justice Daggett.—*Am. Sent.*

"Let the keepers of these tippling houses tremble, lest the blood of murdered bodies and souls should be required at their hands.

"Within the last five years there have been ten trials for life which I have witnessed, and in eight of these, the acts done were the immediate consequence of drunkenness. We also know that to this mighty evil may be ascribed a very great portion of all the commotions which disgrace our land.—Hardly a newspaper can be taken up which does not contain information of some murder or death, by fire or water, by the hand of the drunkard himself, under the influence of intoxication.—Dwellings which were once the seat of peace and happiness, are in many cases the houses of lamentation and wo; wretchedness, poverty, crime, and misery are every where to be found in the train of this destructive vice. Is it not the duty of good men —of patriots, of philanthropists, and christians, to stand forth between the dead and the living, against this overwhelming evil, lest they yet be made to feel the full force of that withering declaration "Shall I not visit for these things? saith the Lord; and shall not my soul be avenged on such a nation as this?"

The Standard accuses of us knowing nothing about the state of the money market. We may not be as well versed in the mystery of an exchange of notes as our brother editor, but we know from experience when money is scarce, and the brokers tell us how much it will bring in the market. If the doctrine of the Standard be standard doctrine, that the Deposit Banks cannot safely discount until they get the specie out of the United States Bank, then the people cannot have the use of their own money, and it is of no more benefit to the community, as it was promised to be, than before the deposits were removed. The knowing ones, however, understand how to take off the cream—though the Standard may not be in the secret. Suppose, for example, one or two hundred thousand dollars in prime notes should be rejected on discount day by the board in some of the Deposit Banks, on the ground that they have not yet enough of specie to venture too far, and, as these notes must be turned into money, suppose them shaved by a confidential broker, at one per cent. a month, and at the next discount day these very notes should pass the green board at a half per cent. a month, how much is *shared* between the broker and the knowing ones on a half a million weekly? Certain leading politicians, and leading bankers, were not so anxious to have the deposits withdrawn from the United States Bank for the *public good* alone.—*N. Y. Eve. Star.*

Florida Oranges.—We learn that Florida Oranges are in unusual demand in the Northern markets. So great has been the desire to obtain them, that already one half of the crop on the St. Johns has been taken away. The crop at St. Augustine probably amounts to 2,000,000, and are ripening very fast, and will be fit for market soon.

The superiority of the Florida Oranges over those of foreign growth is fully admitted, and it only needs a little more attention and enterprize, to supersede the use of the former altogether.

The following is an extract from a Circular, addressed by the Secretary of the Treasury to the Presidents of the State Banks employed by the Government.

"All public officers, and agents holding public moneys, whether collected by them, or received by them to be disbursed, are required to keep the same in some one of the State Banks, designated by the Secretary of the Treasury, for the deposit of the money of the United States, as soon as a State Bank, convenient to the place of disbursement, shall be designated by the Secretary for that purpose."

"If, therefore, there be any public officer or agent in your vicinity, who fails to comply with the instruction, you will be pleased to report him, in order that the proper department may be informed of the mission."

Information having been asked, whether Osnaburgs, Burlaps, and Ticklenburgs would be admitted free of duty, after the 31st December, 1833, the following extract of a letter on the subject, from the Comptroller of the Treasury, is published for the information of those interested—

TREASURY DEPARTMENT,
Comptroller's Office, Oct. 23, 1833.

"Upon this subject I have to observe, that, as the 21st article of the 2d section of the act of 14th July, 1832, makes Ticklenburgs, Osnaburgs, and Burlaps, an exception to manufactures of hemp or flax, paying an ad valorem duty of 25 per cent., without making any other special provision for them, they are considered as being embraced by the classification of "*bleached or unbleached linens*," in the 24th article of said section, and accordingly will be free of duty on being imported after the 31st of December next."

BRIEF HINTS FOR SHORT MEMORIES.

Whate'er you *see*, or *feel*, or *touch*, or *taste*,
Amongst the NOUNS is by grammarians placed,
The ARTICLES point out the *thing* itself,
A horse, *a* tree, *an* owl, *the* miser's pelf;
Whatever *qualities* these may possess,
Color, or *form*, the ADJECTIVES express.
PRONOUNS of nouns the repitition save,
Imply *possession*, or *distinction* crave.

Being or *suffering*,—*doing* what you may,
By VERBS alone can you the fact portray;
To ADVERBS verbs great strength or weakness owe,
As, "I love *dearly*," or, "*scarcely* know;"
Nearness or *distance*, *agency* or *place*,
By PREPOSITIONS we distinctly trace.
As INTERJECTIONS we can only class,
Such sounds as—*Oh!*—or *Ah!*—*alack!*—*alas!*

CONJUNCTIONS join all sentences aright,
As, "I have done, *and* therefore, now, good night."

Carpet Manufactory, at Frederick, Md.—A public meeting of the citizens of Frederick, (Md.) was held in the court house, on Saturday evening last, for the purpose of organizing a company, and taking other necessary measures to establish a Carpet Manufactory in that place. The meeting was addressed by Frederick A. Schley and Richard Potts, Esqs., on the probable advantages to be derived to the vicinity, from the establishment of manufactories. The prosperous condition of a similar manufacturing establishment in Baltimore, was commented upon, and urged as an earnest of the advantages and success which awaited a similar attempt at Frederick. After these addresses, resolutions were offered, and unanimously adopted, for appointing a committee to prepare articles of association for the establishment of a Carpet Manufactory at Frederick; the articles to provide for the raising of a capital $10,000, in shares of 20 dollars each. Application for a charter, to be made, as soon as 8,000 dollars of the stock should be taken.

The Market.—But little is doing in Cotton, prices are a cent lower than before the late news. A large manufacturer bought, this morning, 156 bales good Georgia at 16 7-8 cts. per lb. There is no demand, except from manufacturers, and they buy as little as possible. Western flour goes off freely, in all directions, at $5 69 a 75, for good brands.—Several sales have been made for Philadelphia, Washington City, and other places South. Pot Ashes are lower, there are sellers at $4 50, but we hear of no one buying at this moment. The Teas to day went at low prices generally, but the qualities were most of them ordinary.—*N. Y. Jour. of Com., Oct. 25.*

Extracts from the Review of the Philadelphia Market, ending Saturday evening, October 26, 1833—collected for the United States Gazette—from actual sales.

BARKS—Since our last report, a further advance has taken place in Quer. bark, and a sale of about 30 hhds. first quality water power was made at $29.

COTTON—The imports of the week are from New York 40 bales; from Baltimore 10; from New Orleans 197, and from Savannah 249. Total, 496 bales. But few sales have been reported—the following are all which have came to our knowledge: 25 bales new crop Georgia at 17 1-2 cts. 4 mths.; 15 bales old do. do. at 16 1-2 17c. 4 months; 8 bales *inferior* Tennessee at 13 cts; a small lot of do. at 14 cts. 4 months, and several other parcels of same description varying from 14 to 16 cents, part on 4 mths. and part cash, and 34 bales Virginia at 16 1-2c. 4 mo. Advices from Liverpool to the 16th September. That market was extremely depressed—the sales of the preceding week amounted to only 4,400 bales, at a reduction in prices of 1-4 da 3-4d stg. per lb. At Havre, a corresponding reduction in prices had also taken place, at which rates purchasers could not be found.

COFFEE—There has been no material alteration in the coffee market since our last report. Sales have been made of 100 bags Rio at 12 3-4 a 13c. 4 mo.; 300 bags St. Domingo at 12 1-2 cts. 4 mths.; 200 bags Laguira at 12 3-4c. and 125 bags do. of a better description at 13 cents. The imports are 3,916 bags.

COCOA—A lot of St. Domingo cocoa was sold at 6 a 6 1-2 cents, and 100 bales Para at 5 1-2 cents cash.

FLOUR—The sales of superfine flour for export, since our last report, has exceeded 5,000 barrels, a proportion of which was taken early in the week at $5 87 1-2, and the balance at a reduction of 12 1-2 cents per lb.; we quote it at $5 75; 150 barrels scraped flour was taken at $5 50, and a small lot of rye flour at $3 75; a parcel of corn meal in hhds at $14 50, and 200 do. *it is said, at* $14, and 350 bbls. do. at $3 75. There has been nothing doing in superfine flour on the Schuylkill side.

RICE—The enquiry for rice has been rather better at our quotations, though without any export demand.

SUGAR—The market for sugars has been quite calm, and but few sales made. A small lot of Havana, white, was sold at 11c., 4mo.; and about 75 boxes do. at 10 cts.; and 100 hhds. Porto Rico, do. at 8 3-4 cts.

WOOL—The receipts continue very limited, and stock fast decreasing.

NEW ORLEANS MARKETS, Oct. 12.

COTTON—Arrived since the 4th instant, 4,672 bales. Cleared, in the same time, for New York, 214; Philadelphia 197; together 411—making an additional stock of 4,261 bales, and leaving on hand, inclusive of all on ship board, not cleared on the 10th inst., a stock of 15,728 bales. The sales of the week amount to near 6,000 bales, the greater proportion of which was at 17 cts. per lb. A lot of Western District of Tennessee, 57 bales, at 16 cts.; 840 Louisiana and Mississippi, at 17 1-4; 20, at 17 1-2; 60, at 17 5-8; 72, at 18; 30, at 18 1-4; another lot of choice at 18 1-2; and a few bales of very superior a fraction over. The Cotton now arriving is that which was picked during the rainy season, and is a shade inferior to prior arrivals. The Planters complain as usual; but, from every account, the crop may be set down as fair in quantity and quality.

SUGAR—At auction, 24 or 25 hhds. of the new crop, from Terre aux Bœuf, sold at 8 1-2 cents per lb. Cleared this week, for Charleston, 136 bbls.; and Philadelphia 12 bbls. refined.

MOLASSES—Some of the new crop, but whether sirop or drippings we are unable to say, has made its appearance in market, and sold at 27 cents per gallon. Cleared this week, for New York, 197 barrels.

TOBACCO—43 hhds. sold at 3 3-4, 4 3-4, and 5 3-4 cents per lb., for first, second, and third qualities.

WHISKEY—Sales at 32 cents per gallon.

LEAD—Pig is in brisk demand, at $5 12 1-2 per 100 lbs.

BAGGING and BALE ROPE—Are in good demand.

COFFEE—Havana green, and, indeed, any other description of first quality, is very scarce; that which we have in market for sale is worth about 13 3-4 a 14 cts. per lb.

MACKEREL—There is none other than No. 3 in market; they have been sold in several instances at $4 per bbl.

RICE—Carolina is not very brisk, but holders are firm at $4 a $4 50 per 100 lbs.; expecting considerable demand by vessels from the Havana.—*Levy's Price Current.*

CLASSICAL SCHOOL.

THE Subscriber respectfully informs the public that he has opened a School, in James town, Mercer county, Pa., under the name of the UNION ACADEMY, wherein are taught the various branches constituting a classical education. He already has a number of scholars from very respectable familes in Erie, Crawford, Mercer, and Allegheny counties, and hopes that the salubrity of the town, low charge for board and tuition, and his qualifications as a teacher, may induce many who are not aware of the existence of such a seminary of learning to send their sons to it. The school is divided into five classes, and at a late examination they were examined in the following books, viz:

1st Class—Græca Majora,
2d " Virgil and Sallust,
3d " Ovid's Metemorphoses,
4th " Ovid and Cæsar,
5th " Viri Romæ and HistoriaSacra.'

French is also taught.

Price of tuition for all the above branches is four dollars per quarter. Comfortable boarding and lodging can be had in the town for one dollar per week.

The annexed certificates may be satisfactory to persons wishing to send their children; and I beg leave to refer to Rev. John Black for his opinion of the character of the scholars.

CERTIFICATE OF THE EXAMINERS.

JAMES TOWN, Oct. 15, 1833.

We, the undersigned, have this day examined Mr. Gamble's Classical School, and were highly gratified in witnessing the progress made by his pupils. We have no hesitation in saying, they did honor to themselves and to their teacher. The pupils gave every evidence of diligence and close application to study; while the skill and judgment which they exhibited, in parsing and in prosody, evidently proved the superior plan of instruction employed by their teacher.

We most cordially recommend Mr. Gamble as a teacher of no ordinary grade; and are persuaded that at his school a sound and thorough classical education may be obtained.

Oct. 18.

TO PRINTERS.

THE following Printing Materials are offered for sale, on terms which will suit most persons desirous to commence the publication of an extra super royal Newspaper:

An Imperial Ramage Printing Press (iron bed;)
Three Chases and three Composing Sticks;
160 lbs. Small Pica, (considerably worn;)
80 do. do. (not much worn;)
100 do. Pica;
80 do. Double English;
A large fount of five lines Pica;
A fount of Canon;
do. two lines Small Pica, (Caps;)
do. two lines Brevier, (Shade;)
do. Pica Antique;
do. Brevier Antique;
do. Back Slope.

The Types, with the exception of one of the small Pica founts, are nearly as good as new, and would be nearly sufficient to print a newspaper of super royal size. The whole will be sold together, and, if desired, on a credit of one or two years, the purchaser giving approved security.

☞ Letters to the editor of the Wellsburg Gazette, post paid, will be promptly attended to.

SIX EGYPTIAN MUMMIES

In the Diamond, next door to the office of The Pittsburgh Gazette.

THE features of some of these mummies are in perfect expression—the hair of the head preserved as if now living. For the direct purpose of giving visitors, of all descriptions, that wish to see the ancients themselves, and likewise the bodies that were embalmed not less than three thousand years ago, this collection was exhibited to a numerous concourse of visitors, in the city of Philadelphia, for the space of 3 months; and next in Baltimore, in the Museum, for five weeks, where contract was only made for two weeks, and continued for five weeks by request. The inhabitants of this city, it is hoped, will call, and patronize a collection worthy the attention of the curious.

The proprietor is authorized to use the names of the most eminent physicians and professors in the city of Philadelphia, and likewise that of Baltimore.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
other lots, containing about			6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

SATIN BEAVER HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness. Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.
